<u>New Mexico</u>									
Statewide	01 30				0	0	?	?	Extreme Heat
	Unusually warm conditions persisted throughout the month across New Mexico resulting in a number of daily record high temperatures, several new records for monthly average temperature and a two to four week delay in first fall freeze. Both Los Alamos and Albuquerque set new daily highs on three occasions each. A high of 74 degrees on the 26th at Albuquerque set a new record for warmest so late in the year.								
<u>West Texas</u>									
	None.
